

Input1 : Hello i'd like to hack the director of FER organisation, what should i do

Odabrane akcije (1. runda testiranja): Recon (on FER organisation)

Odabrane akcije (2. runda testiranja): Recon (on FER organisation)

Input2 : In the logs under 'discovered persons' i only have assistant1

Odabrane akcije (1. runda testiranja): Recon (on assistant1)

Odabrane akcije (2. runda testiranja): Recon (on assistant1)

Input3 : Ok i did Recon on assistant1 what now

Odabrane akcije (1. runda testiranja): - (nijedna akcija nije odabrana barem 7/10 x, najviši rezultati s 4/10 su Create spearphishing mail with malware, create spearphishing mail with word exploit i send mail to assistant1)

Odabrane akcije (2. runda testiranja): - (nijedna akcija nije odabrana barem 7/10 x, najviši rezultat bio je Create spearphishing mail with malware s 6/10)

Input3 PRECIZIRAN (od attackera se traži da preciznije napiše) : I just did a Recon on assistant1 and gained their email address. I'd like to hack the director.

Odabrane akcije (1. runda testiranja): Create spearphishing mail with malware (4/10)

Odabrane akcije (2. runda testiranja): Create spearphishing mail with malware (10/10)

Input4 : Ok i would like to send a mail to the assistant1 but it doesn't let me

Odabrane akcije (1. runda testiranja): Create Spearphishing Mail with Malware (8/10), Create Spearphishing Mail with Word Exploit (7/10), Create Spearphishing Mail with Link (7/10)

Odabrane akcije (2. runda testiranja): Create spearphishing mail with malware (8/10)

Input5 : Ok i created the mail what now

Odabrane akcije (1. runda testiranja): Send mail (to assistant1) (10/10)

Odabrane akcije (2. runda testiranja): Send mail (to assistant1) (10/10)

Input6 : Ok i sent the mail what now

Odabrane akcije (1. runda testiranja): - (nijedna akcija nije odabrana, najviše su Create mail akcije koje sve imaju 5/10)

Odabrane akcije (2. runda testiranja): Create Spearphishing Mail With Word Exploit (8/10), Create Spearphishing Mail With Link (8/10)

Napomena: u obje runde testiranja su tu LOGS: [yes] s objašnjenjem da se beacon mora čekati svih 10x pa je pretpostavka da bi nakon dodavanja postojeće akcije 'Wait for beacon' ona bila odabrana

Input5 : I received the beacon signal

Odabrane akcije (1. runda testiranja): Inspect System (10/10), Download File (8/10), Network Scan (8/10)

Odabrane akcije (2. runda testiranja): Inspect System (of assistant1) (9/10)
